

**Mounting  
Model MT-1424/AIC-10**

**Model MT-1424**

**GENERAL CHARACTERISTICS**

SIZE:..... 6 7/8" L x 4 7/8" W x 2 1/8" H

WEIGHT:..... 10 oz. Max.

**THIS UNIT IS USED ON THE  
FOLLOWING AIRCRAFT:**

- F-16
- F-2

**DESCRIPTION AND USE**

The MT-1424/AIC-10 is the mounting for Amplifier Assembly AM1963/AIC. The MT-1424/AIC-10 contains an MS-24021 connector, which mates with the connector on the AM1963/AIC. Mounting MT-1424/AIC-10 requires four mounting holes in the aircraft supporting structure. The Amplifier Assembly is secured to the mounting by two captive screws which enable quick disconnect of the assembly if required. Typical mounting location is under the pilot seat.
